

SETTING THE STANDARD
FOR OFFSHORE & ONSHORE
ENGINEERING

Established in 12TH JULY 2012 EPCF PRIMA SDN BHD (formally known as Efficiente Process Sdn Bhd) has built a reputation as one of the leading steel fabricators in Malaysia. We are Bumiputra Company that was formed by a group of Project Managers and Engineers. Lead by the Managing Director, General Manager, Project Manager and project & production engineers giving us the scale, scope and breadth of expertise that a global organization can offer.

Our facilities provide sufficient technical staff that can be mobilized to client site on 24hrs basis. We also have fabrication facilities in Puchong for our in-house service, manufacturing, fabrication, testing instruments and equipment and warehousing storage area. Mainly to develop an all-in-one management system that provides records, service schedule, spare part or engineering consumable plan that enables EPCF PRIMA SDN BHD to provide robust and very cost effective solutions.

Today, EPCF PRIMA SDN BHD is one of the registered key solutions and service provider in General Industries, Oil and Gas and Power & Utilities industry in Malaysia. We have covered a large range of projects which include building complete new skid piping systems and upgrading existing piping and structural systems. We also provide continuous after sales support to major oil and gas companies in Malaysia and overseas.

Our mission is to provide quality equipments and materials for general industries, oil & gas, power & utilities industry, complemented by sound engineering and procurement management team

Certificate Number 13800-Q15-001
ISO 9001: 2015

Petronas Gas Berhad - Metering Station : EPCC of Pokok Sena New City Gate

ExxonMobil :
Provision Detailed
Design Engineering Service
For Tapis Eor And Rejuvenation

PROJECT - BROWNFIELD :
Chemical Injection Pump and
CI Feed Tank 672-3-P-508/509

ASME VIII Div.I Air Receiver

Sarawak Shell Berhad :
90 BBL Surge Vessel Skid :
Pressure Vessel as per ASME Sect. VIII
Div. 1 & Skid Frame as BS EN 12079-1

Total Borneo B&V – Technip Fareast :
Maharajalela South Project,
Onshore Processing Plant,
Energizer Make-Up Skid

DNV 2.7-1 Lifting Frame

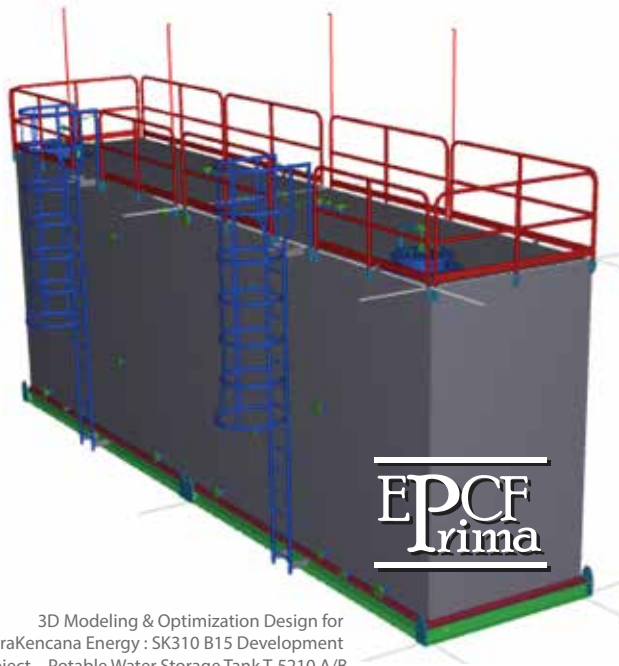

SIEMENS / DAELIM / PETROFAC : Oman Oil Refineries & Petroleum Industries Company SAOC :
SOHAR Improvement Project – Poly Electrolyte Dosing Skid A, B, C & D (4 Units)

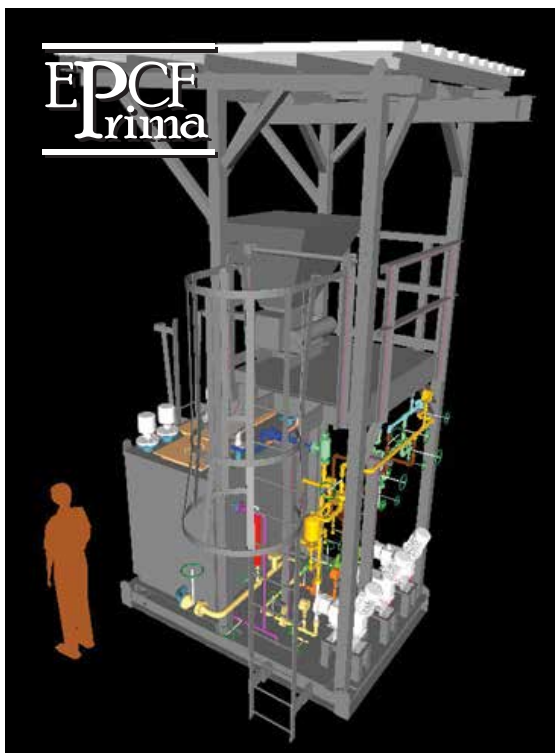

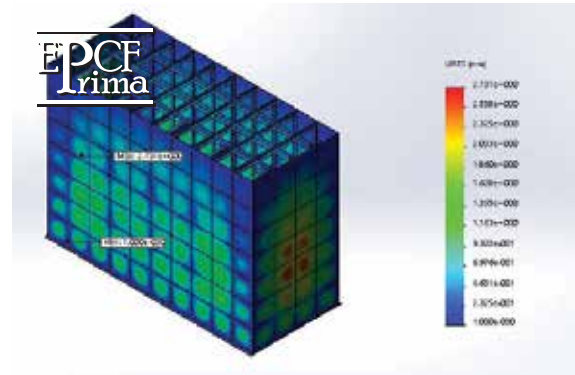

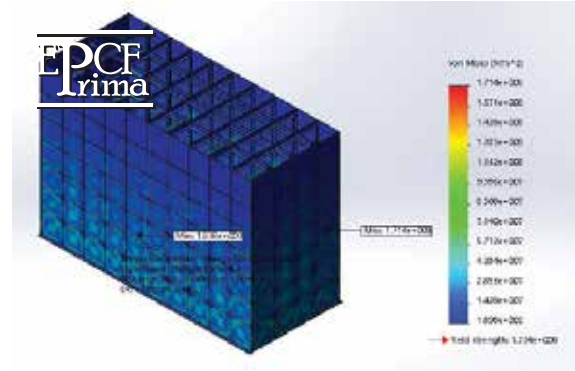

Murphy Sarawak Oil Co. Ltd : SA-AA Living Quarters –
Main Potable Water Storage Tank (T-5230)

Design & Engineering

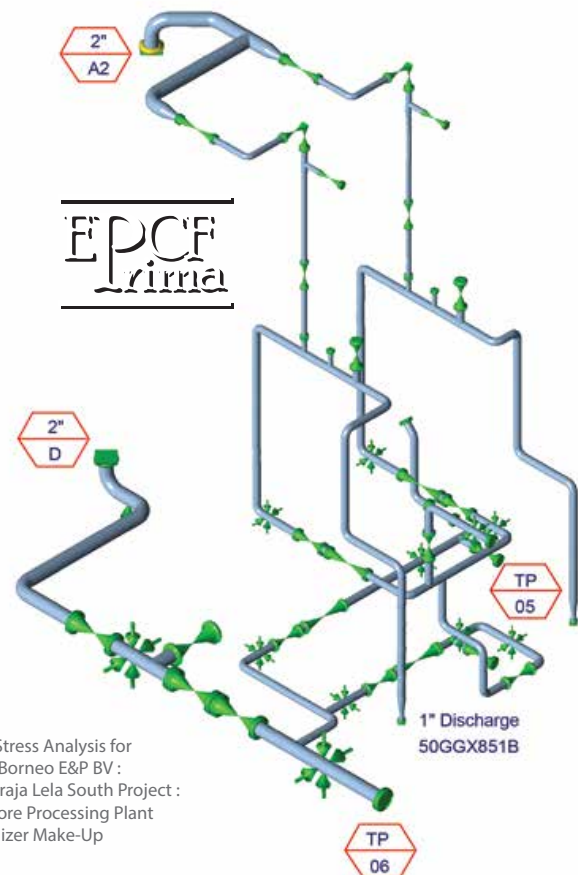

- 3D modelling for complete plant or skid packages design
- Stress and strength analysis for structure and piping.
- Project management
- Complete drawings solution from concepture to design, engineering, fabrication and as-built.

3D Modeling & Optimization Design for
SapuraKencana Energy : SK310 B15 Development
Project – Potable Water Storage Tank T-5210 A/B

3D Modeling for
SOHAR Improvement Project – Poly Electrolyte Dosing Skid

Pipe Stress Analysis for
Total Borneo E&P BV :
Maharaja Lela South Project :
Onshore Processing Plant
Energizer Make-Up

EPCF PRIMA Sdn Bhd delivers high quality, commercially viable solution for international and local based industrial developments, focusing on generating maximum value for our clients. Specialist teams offer a comprehensive scope of services, encompassing initial concept studies through full engineering and constructions contract. Our key project and engineering staff include personnel experience in construction and fabrication work environment, helping to ensure that we provide innovative & operable solution to challenging project without compromising regulation and requirement guideline standard.

Our Services:

- Design , Engineering , Construction & Commissioning Services
- Project Management & Erection Services
- Plan And Un-Plan Plant Major Turnaround /Shutdown Work Services.
- Tanks, Pressure Vessel, Separators & Exchanger
- Pipeline, Structural Installation & Hook Up Services (Onshore or offshore)
- Piping And Structural Design Analysis Services. (With or without design calculation endorsement)
- Electrical & Instrumentation Design, Installation, Maintenance And Commissioning
- Package (Sets) Welding And Steel Work Fabrication
- Corrosion Protection Services: Research and Development, Engineering Design and Manufacturing Of Pre-Impregnated and Filled Saturated Composite Strengthening Systems That Restore, Protect and Re-Inforce Pipes, Pipeline, Structures and marines.
- Blasting & Painting Work Services (In-Situ or in our facilities)
- Non Destructive Test Services
- Testing and Commissioning Services
- Insulation Services
- Material & Equipment Rental
- Rigging & General Man-Power Supply
- DNV 2.7-1 , DNV 2.7-2 or EN12079-1 : Offshore Container , Cargo Carrying Units & Skid Structure
- Re-Certification Of Offshore Container, Cargo Carrying Units & Lifting Gears
- Design And Built Of Custom Made Office Cabin And Container
